UPDATE ON LIBRARY/BOOKMOBILE SERVICES

The Iron County Bookmobile library has been getting a large amount of press lately because of the questions that have been asked by elected officials regarding its validity. The Enoch City Council has supported the service by supplying a building, the property tax levy and an additional \$41,200 per year. This planned support has not changed but forces beyond our control may cause a change in how services are given. The Enoch City Council and Staff have planned for every foreseeable change and plan to continue providing library services. You will be notified if and when changes might occur and what they mean to you.
